

Dr. Alexandra Keller
Specialist in Chiropractic
Frankfurt, Germany

Dr. Keller founded her own practice for veterinary medicine and chiropractic in 2005 in Frankfurt, Germany. As certified member of the International Veterinary Chiropractic Association (IVCA) her focus in daily clinical work lies on the treatment of orthopaedic diseases in canine patients. Through numerous continuous education programs and her long experience she has built up an expertise in conservative treatment and rehabilitation of her patients. Lameness evaluation, gait analysis, orthopedic ultrasound, joint injections, regenerative medicine and physical rehabilitation belong to her standard tools in practice. Apart from her curative work she is operating as instructor at the IAVC imparting her knowledge about the canine orthopedic patient to fellow veterinarians. Dr. Keller also became a specialist in canine Sports Medicine and is involved in organizing educational events in this field in her own practice.
